## MINISTRY OF TEXTILES

New Delhi, the 11th November, 1985

S.O. 5588.—Whereas the Textiles Committee has established standard type for the material defined under regulation (2) (A) of each of the regulations listed in the Annexure to this notification for the purposes of export;

And whereas on the recommendation made to it in this behalf by the Textiles Committee, the Central Government is of opinion that the material which does not conform to the standard type established by the Textiles Committee, should not be exported;

Now, therefore, in exercise of the powers conferred by sub-section (1) of section 17 of the Textiles Committee Act, 1963 (41 of 1963) the Central Government hereby prohibits the export from India to any foreign country, of the material defined under regulation (2) (A) of each of the regulation listed in the said Annexure unless the material is covered by a certificate instead by the Officer authorised by the Textiles Committee in this behalf under regulation (7) of the corresponding regulations.

Provided that with a view to avoid interruption of the trade during a transitory period of six months from the date on which this notification comes into force, the officer authorised by the Textiles Committee in this behalf to issue a certificate under regulation (7) may permit any such material to be exported without any such certificate;

- (i) if the material has been packed before the date on which this notification comes into force;
- (ii) the officer referred to above may permit any such material to be exported without any such certificate, if he is of the opinion that the Textiles Committee is unable for reasons to be recorded by such officer in writing, to arrange for and complete such inspection, within a period of one week from the date on which the material is offered for inspection.

This notification shall come into force with effect from the date of its publication in the Official Gazette.

- (3) the exporter shall furnish to the agency the identification marks applied to the consignment to be exported.
- (4) Every intimation under sub-rule (1) above shall be given not less than seven days prior to the despatch of the consignment from the fanutacturer's premises, while in the case of intimation along with declaration under sub-rule (2) shall be given not less than three days prior to the depatch of the consignment from the manufacturer's premises.
- (5) On receipt of the intimation under sub-rule (1) and the declaration, if any, under sub-rule (2), the agency-
  - (a) (i) on satisfying itself that during the process of manufacture, the manufacturer had exercised adequate quality controls as laid down in Appendixquarte quanty controls as laid down in Appendix A and followed the instructions, if any, issued by the Council or Agency in this regard to manufacture the product to conform to the standard specifications recognised for the purpose, shall within three days issue a certificate declaring the consignment of refractory bricks as exportworthy.
    - (ii) In case where the manufacturer is not the exporter, however, the consignment shall be physically verified and such verification and inspection, if necessary shall be carried out by the Agency to ensure that the above conditions are complied with.
  - (iii) The agency shall however carry out the spotcheck of some of the consignments meant for export and shall visit the manufacturing unit at regular intervals to verify the naintenance of the adequacy of inprocess quality control drills adopted by the unit.
  - (iv) If the manufacturing unit is found not adopting the required quality control measures at any stage of manufacture or does not comply with the recommendations of the Council or agency, the unit shall be declared as not having adequate in-process quality control drills and in such cases, the unit if so desires shall apply afresh for ad-judgement of the maintenance of adequacy of inprocess quality control drills.
  - (b) In case where the exporter had not declared under sub-rule (2) of rule 4 that adequate quality control as laid down in Appendix-A had been exercised, on satisfying itself that the consignment of refractory bricks conforms to the standard specifications recognised for the purpose, on the basis of inspection and testing carried out as laid down in Appendix-B, shall within seven days of carrying out such inspec-tion issue a certificate declaring the consignment of refractory bricks as exportworthy;
  - Provided that where the agency is not so satisfied, it shall within the said period of seven days refuse to issue a certificate to the exporter and shall comreunicate such refusal to the exporter alongwith the reasons.
  - (c) (i) In case where the manufacturer is not the exporter under sub-rule 5(a) or consignment is inspected under sub-rule (5) (b), the agency shall, immediately after completion of the inspection, seal the packages in the consignment in the manner so as to ensure that the sealed packages cannot be tampered with.
    - (ii) In case of rejection of the consignment, if the exporter so desires the consignment may not be scaled by the agency but in such cases, however, the exporter shall not be entitled to prefer any appeal against the rejection.
- 5 Diago of Inspection—Every inspection under these rules shall be carried out either: (a) at the premises of the manufacturer of such product, or (b) at the premises at which the

- goods are offered by the exporter for inspection, provided adequate facilities for the pulpose exist therein.
- 6. Inspection Fee-Subject to a minimum of Rs. 75 for each consignment a fee at the rate of 75 paise for every Rs. 100 of FOB value of such consignment shall be paid as inspection fee under these rules.
- 7. Appeal—(1) Any person aggrieved by the refusal of the agency to issue a certificate under sub-rule (5) of rule 4, may, within ten days of the receipt of communication of such refusal by him, prefer an appeal to a panel of experts consisting of not less than three but not more than seven persons as may be constituted by the Central Government.
- (2) The panel of experts shall consist of at least twothirds of non-officials of the total membership.
  - (3) The quorum for the panel of experts shall be three.
- (4) The appeal shall be disposed of within fifteen day of

#### Quality Control

- 1.0 The quality control of refractory bricks shall be ensured by the manufacturer by effecting the following controls at different stages of manufacture, preservation and packing of the products as laid down below, together with the levels of control as set out in the Schedule appended hereto.

  1.1 Purchase and raw materials control:—
  - - (a) Purchase specifications shall be laid down by the manufacturer incorporating the properties of raw materials to be used.
    - (b) Either the accepted consignments shall be accompanled by a supplier's test and inspection certificate corroborating the requirements of the purchase specifications, in which case occasional checks shall be conducted at least once in 10 consignments by the purchaser for a particular supplier to verify the correctness of the aforesaid test or inspection certificate or the purchased material shall be regularly tested and inspected either in the laboratory within the factory or in an outside laboratory or test house.
    - (c) The sampling for inspection or test to be carried out shall be based on the recorded investigations.
    - (d) After the inspection or test is carried out, systematic method shall be adopted in segregating the accepted and rejected materials and for disposal of rejected materials.
    - (e) Adequate records in respect of the aforesaid controls shall be regularly and systematically maintained by the manufacturer.

### 12. Process Control:

- (a) Detailed process specifications shall be laid down by the manufacturer for different stages of manufacture.
- (b) Equipment and instrumentation facilities shall be adequate to control process as laid down in the process specifications.
- (c) Adequate records shall be maintained by the manufacturer to ensure the possibility of verifying the controls exercised during the process of manufacture.
- Note: For routine control over the manufacturing process, reference to IS: 1528 (Part-VII)-1974 is recommended.

## 1.3 Product Control:

- (a) The manufacturer shall have either own testing facilities or shall have access to such testing facilities existing elsewhere to check up whether the products conform to specifications recognised under section 6 of the Act.
- (b) Sampling for test and inspection to be carried out shall be based on the recorded investigation.
- (c) Adequate records in respect of sampling and test carried out shall be regularly and systematically maintained.
- (d) The minimum levels of controls to check the finished products shall be as specified in the Schedule.
- 1.4 Prescryation Control: The product shall be well preserved both during the storage and transit.
- 1.5 Packing Control: Packing specifications shall be laid down with a view to satisfying the controls as mentioned in the Schedule for packing of the products.
- 2.0 Apart from the above inspection, final inspection should be carried out at the time of packing of refractory bricks, by adopting the scale of sampling as specified in Table-I given below, by defining a lot as follows:—

"In any consignment all or 27,000 numbers of refractories of the same type (as the case may be) shall be grouped together to constitute a lot".

- 2.1 The sample sizes given in Table-I relate to non-destructive tests only, that is, for finding the permissible number of defectives and not for physical and ckemical tests.
- 2.2 The details of the number of samples for physical and chemical tests are given in Table-II and these samples shall be drawn from the samples already collected from the lot in accordance with Table-I.

- 3. Levels of Control for packing (See sub-paragraph 1.5 of Appendix A)
  - 3.1 Packing:
- 3.1.1 The packages shall have sufficient strength to withstand handling during transit and the refractory bricks shall be packed so as to avoid breakage/damage etc.
- 3.2 Marking:
- 3.2.1 Packages containing refractory bricks shall be marked with the following:—
  - (a) Name and quantity of the material
  - (b) Name of the manufacturer and trade mark, if any,

## Consignmentwise Inspection

- 1. The consignment of refractory bricks shall be subjected to inspection and tested to ensure conformity of the same of the standard specifications recognised under section 6 of the Act.
- 2. In the absence of specific stipulation in the contractual specifications as regards scale of sampling the same laid down in Table-I and II given below shall become applicable by defining a lot as follows:—

"In any consignment all or 1.2000 numbers or refractories of the same type (as the case may be) shall be grouped together to constitute a lot".

2.1 The sample sizes given in Table-I below, relate to non-destructive tests only, that is, for finding the permissible number of defectives and not physical and chemical tests.

#### Annexure—III

- 1. Specifications for Fireclay Refunctory Bricks
  - (i) General Appearance:— Refractories shall be compact, homogeneous and free from cracks, voids and other flaws. They shall be burnt evenly throughout, and shall have sufficient mechanical strength and no soft corners.
  - (ii) Dimensions and Sizes:—Dimensions and sizes of refractory bricks shall be as specified in the export contract together with tolerances mentioned therein. In case no tolerance is specified in the export contract a tolerance of ± 2% or ± 1 mm whichever is greater may be allowed.

- (iii) The Fireclay refractory bricks have been classified as follows:—
  - A- Fireclay refractories high heat duty.
  - B-Fireclay refractory moderate heat duty group-A.
  - C-Fireclay refractory moderate heat duty group-B.
  - D-Fireclay refractory super heat duty.

The above four types of fireclay refractories, A, B, C and D shall satisfy the following:—

## 2. Specification for Basic Refractory Bricks

- (i) General Appearance: Refractories shall be compact, homogeneous and free from cracks, voids and other flaws. They shall be burnt evenly throughout, and shall have sufficient mechanical strength and no soft corners.
- (ii) Dimensions and Sizes—Dimensions and sizes of refractory bricks shall be as specified in the export contract together with tolerances mentioned therein. In case no tolerance is specified in the export contract a tolerance of ±2% or ±1 mm whichever is greater may be allowed.
- (iii) The basic refractory bricks are classified as under:-
  - (A) Magnesite refusctories.
  - (B) Magnesite chrome refractories for roof lining.
  - (C) Magnesite chrome refractories for general purpose.
  - (D) Chrome magnesite refractories for general purposes.

The above four types of basic refractories A, B, C, and D shall satisfy the following:—

- 3. Specification for Silica Refractory Bricks (i) General Appearance:— The refractory bricks shall be compact, homogeneous and free from cracks, voids, pink or black cores and other flaws. They shall have sufficient mechanical strength and no soft corners, and shall be burnt evenly throughout.
- (ii) Dimensions and sizes :—Dimensions and sizes of refractory bricks should be as specified in the export contract together with tolerances mentioned therein. In case no tolerance is specified in the export contract a tolerance of  $\pm 1.5\%$  or  $\pm 1$  mm whiever is greater may be allowed.
- (iii) Pyrometric cone equivalent (Softening point)—:—The refractories shall have a pyrometric cone equivalent not less than standard pyrometric cone (ASTM) No. 31.
- (iv) Refractoriness under load:—The refractories when tested as per the method specified in IS: 1528(Part—II)—1974 should have not less than 1670°C.
- (v) Apparent Porosity:—The apparent porosity of the refractories shall not be more than 25% of volume.
- (vi) True specific gravity:—The true specific gravity of refractories shall not be more than 2.35.
- (vii) Permanent Linear change after re-heating:—When the refractories uniformly heated to 1450°C and maintained at that tempearature within a variation±2°C for four hours and slowly cooled, the permanent linear expansion shall not exceed 1%.
- (viii) Cold crushing strength:—The cold crushing strength of silica refractories shall be not less than 300 kgf/cm\*.
- 4. Specification for Acid Resisting Refractory Bricks—
  (i) General appearance:—The Refractories shall be compact, homogeneous and free from cracks, voids and other flaws. They shall be burn evenly throughout, and shall have sufficient mechanical strength and no sot corners.
- (ii) Dimensions and Sizes:—Dimensions and sizes of refractory bricks should be as specified in the export contract together with tolerance mentioned therein. In case no tole-

- rance is specified in the export contract a tolerance of  $\pm 2\%$  or  $\pm 2$ mm whichever is greater may be allowed.
- (iii) The alumina (Al  $O_0$ ) content in the refractory shall be  $25\pm2\%$
- (iv) Cold Crushing Strength:—The cold crushing strength of refractories shall be not less than 500 kg/cm.
- (v) Bulk Density:—The bulk density of acid Refractories should be 2.00 gms/cc Max
- (vi) Water absorption:—The water absorption of acid refractory bricks should be 4% (Max).
- (vii) Resistance to Acids other than Hydroflouric Acid:

  The Acid refractories should have resistance to acids other than Hydroflouric and it should be 98.5% Min.
- 5. Specification for Silimanite Refractory Bricks:—(i) General Appearance :—Refractories shall be compact, homogeneous and free from cracks, voids and other flaws. They shall be burnt evely throughout, and shall have sufficient mechanical strength and no soft corners.
- (ii) Dimensions and Sizes :—Dimensions and sizes of refractory bricks shall be as specified in the export contract together with tolerances mentioned therein. In case no tolerance is specified in the export contract a tolerance of  $\pm 2\%$  of  $\pm 1$ mm whichever is greater may be allowed.
- (iii) Pyrometric consequivalent (Softening Point): "The fractories shall have a pyrometric cone equivalent (PCE) not less than standard pyrometric cone (ASTM) No. 36.
- (iv) Apparent Porosity: The apparent porosity of the refractories shall be not more than 22% by volume.
- (v) Permanent linear change after roth ating; When the refractories are uniformly heated to 1500°C and main tained at the temperature within a variation of ±20°C for five hours and slowly cooled, they shall not show a linear change of more than 1% of the original length.

## 6. Specification for High Alumina Refractory Bricks :-

- (i) General Appearance:— The refractories shall be compact homogeneous and free from cracks, voids and other flaws. They shall be burnt evenly throughout, and shall have sufficient machanical strength and no soft corners.
- (ii) Dimensions and Sizes:— Dimensions and sizes of refractory bricks should be as specified in the export contract together with tolerance mentioned therein. In case no tolerance is specified in the export contract a tolerance of  $\pm 2\%$  or  $\pm 1$  mm whichever is greater may be allowed.
- (iii) Pyrometric cone equivalent (Softening Point):— The refractories shall have a pyrometric cone equivalent (PCE) not less than standard pyrometric erron cone (ASTM) No. 36.
- (iv) Refractoriness under load:— The refractoriness when tested as per the method specified in the IS: 1528 (Part II 1974) should be not less than 1500°C.
- (v) Apparent Porosity: The apparent porosite refractories shall be not more than 16% by volume.
- (vi) Permanent Linear change after re-heating: When the refractories uniformly heated to 1500°C and maintained at that temperature within a variation  $\pm 20$ °C for two hours and slowly cooled the permanent linear expansion shall be maximum  $\pm 0.2\%$ .
- (vii) Cold Crushing Strength: —The cold crushing strength of high Alumina refractories shall be not less than 600 kgf/cm.
- 7. Specification for Insulating Refractory Bricks—(i) General Appearance:— The bricks shall be compact, homogeneous and free from cracks, voids, pink or black cores and other flaws They shall have sufficient mechanical strength and no soft corners.
- (ii) Dimensions and Sizes :—Dimensions and sizes of refractory bricks should be as specified in the export contract together with tolerances mentioned therein. In case no tolerance is specified in the export contract a tolerance of  $\pm 2\%$  or  $\pm 1$ mm whichever is greater may be allowed.

## वैद्योलियम और प्राकृतिक गैल मंद्रालय

नर्ड विरुखी, 13 सवस्यर, 1985

का. आ. 5590.-- यतः केन्द्रीय सरकार की यह प्रतीत होता है कि लोकहित में यह आवश्यक है ति अतम राज्य में दिली जंबन पाईण्ड से काकृषा चि०टि०फ० पेट्रोलियम के परिवहन के निरुप्त ईप लाईन तेल तथा प्राफितिक गैस प्रायोग द्वारा बिछाई जानी चाहिए।

और यतः प्रशीत होना है कि ऐसी लाइनों को बिछाने के प्रयोजन के लिए एतद्पाबद अनुमूखी में विणित भूमि में उपयोग का अधिकार अजित करता आवश्यक तै।

अतः अत्र पट्टोलियम और खितित्र पाष्ठपणाइन (धृति में उपयोग के अधिकार का प्रचेन) अधिनियम, 1962 (1962 का 50) की बारा 3 की उपधारा (1) द्वारा प्रदत्त सक्तियों का प्रयोग करते हुए केन्द्रीय सरकार ने उसमें अपयोग का धिकार ऑजन करने का अपना आगय एनद्द्वारा घोषिन किया है ।

धवातें कि उक्त भूमि में हितबद्ध कोई व्यक्ति, उस भूमि के मीचें पाइन लाईन बिछाने के लिये भाक्षेप उपायुक्त, शिवसागर,/भसम के कार्यालय में इस भ्रष्टिसूचना की तारीख के 21 दिसों के भीतर कर सकेगा।

धौर ऐसा श्राक्षेप करने वाला हर व्यक्ति निर्निष्टतः यह भी कथन करेगा कि क्या वह यह चाहता है कि उसकी सुनवाई व्यक्तिगत हो या किसी विधि व्यवसायी की मार्फत।

#### AWARD

The Government of India, Ministry of Labour in exercise of the powers conferred on them under Section 10(1)(d) of the I.D. Act, 1947 has referred the following dispute to this Tribunal for adjudication under Order No. L-20012(381)/84-D.HI(A), dated 26-4-1985.

#### **SCHEDULE**

"Whether the action of the management of Angarpathra Colliery of Messrs Bharat Coking Coal Limited, P.O. Katrasgarh, District Dhanbad in denying regularisation as Dresser to Shri Haribol Kumhar is justified? If not, to what relief the workman concerned is entitled?"

In this case both the parties filed their respective W.S. documents etc. Thereafter several adjournments were granted. But ultimately on 1-10-1985 both the parties appeared and filed a memorandum of settlement which appears to be fair and proper. Accordingly I accept the same and pass an Award in terms of the memorandum of settlement which forms part of the Award as annexure.

#### AND

Their workmen,

The humble petition of compromise on behalf of the parties to the reference most respectfully showeth:—

1. That without prejudice to the contentions raised by the parties in their respective pleadings, the parties above named have amicably settled the dispute on the following terms:—

#### Terms of Settlement

- (a) That the concerned workman Shri Haribol Kumbhar will be regularised as Dresser with effect from 19-7-1984, which is the date of raising the present dispute before the A.L.C. (C). Dhanbad.
- (b) That the designation of the concerned workman will be changed from "Ward boy" to that of "Dresser" and he will be treated as "Dresser" retrospectively from 19-7-1984 for all intents and purposes. This will be binding on all other dressers of Katras Area and none of them should feel that he has been superceded on account of seniority being given retrospectively from 19-7-1984.
- (c) That the concerned workman will not claim any other benefit and he will continue in the same grade "H" and in the same scale of nay in which he is at present in view of the fact that both types of workmen working as "Ward Boy" and "Dressers" are in the same grade "H".
- 2. That in view of the settlement referred above there remains nothing to be adjudicated.

Under the facts and circumstances stated above the Hon'ble Tribunal will be graciously pleased to accept the terms of the settlement as fair and proper and will be pleased to pass the Award in terms of the settlement.

#### AWARD

Government of India, Ministry of Labour and Rehabilitation, Department of Labour by its Order No. L-12012(97)/83-D.II(A) dated 17-11-1983 referred under Sections 7A and 10(1)(d) of the Industrial Disputes Act, 1947 between the employers in relation to the Management of State Bank of India, Vijayawada and their workmen to this Tribunal for adjudication:

"Whether the action of the management of State Bank of India, Region III, Vijayawada in relation to their Palkol Branch in changing the designation of Shri A. Radhapathy, Part-time workman from Messenger-cum-Watchman to Waterboy from 1-3-73 and in not promoting him as full-time Messenger with effect from 1-9-1977 is justified? If not, to what relief is the workman concerned entitled?"

This reference is registered as Industrial Dispute No. 27 of 1983 and notices were issued to the parties.

2. It is mentioned in the claims statement that the workman Sri A. Radhapathi was appointed as part time workman from Messenger-cum-Watchman at Palkol Co-operative Sugar Factory Campus Sub-Office on 3-6-1972 by an order of the Agent now designated as Branch Manager, State Bank of India, Palkol Branch on 1/3rd scale of pay per month and he worked as such till 28-2-1973. It is further mentioned by an order dated 1-3-1973 of Branch Manager Sri A, Radhapathy was reverted as Sweeper-cum-Waterboy on an adhoc salary of Rs. 25.00 per month which amounted to an altera-tion of conditions of service of workman in respect of hours of work, status, pay etc. to the detrimental of the workman without notice and in violation of Section 9A of the LD. Act. It is furthermentioned by an order dated 14-11-1974 the said workman designation was again changed to that of part time Waterboy on half scale of pay without notice and the same is in contravention of Section 9A of the I.D. Act to the workman from 1-12-1979. The workman hours of work was enhanced to 29 hours per week and paid the scale of pay at 3|4 but the designation remained as part time waterboy as per the Bypartile Settlement. It is pointed out that there is no designation of Messenger-cum-Watchman and the nature of duties of Messenger implies full time employment, and therefore the appointment of part time Messenger-cum-Watchman is irregular and the irregularity was more in the designation as they were performing the work relating to the Messengers more. The Bank having realised this position issued Staff Circular 74 dated 22-8-1977 and Staff Circular No. 80 dated 18-10-1978 that all part time Messenger-cum-Watchman are full time Messengers and also mentioned that there can be no designation of Messenger either such or any combination with any other designation. Therefore as per the provisions of Bypartite Agreement it is clear that till 1-9-1977 from which date all part time Messenger-cum-Watchman were made full time Messenger, the Bank violated the provisions. So the reversion of workman from part time Messenger-cum-Watchman to a workman on adhoc pay and as Sweeper-cum-Waterboy from 1-3-1973 without notice in terms of Section 9A of the LD. Act is illegal abinitio, void and inoperative. It is also mentioned that the workman should have been promoted as full time Messenger category from 1-9-1977. So the petitioner Union pointed out to pass an award declaring the order of Branch Manager reverting the workman Srj A. Radhapathi from 1-3-1973 as illegal and also set aside the order dated 14-11-1974 changing the workman designation as illegal and void and to declare that A. Radhapathi be deemed to be continued as a part time Messenger-cum-Watchman from 1-3-1973 to 1-9-1977 from which date all part time Messengers were promoted as full time Messenger and finally that he should be entitled as full time Messenger from 1-9-1977. All consequential benefits and potecting his safary and also giving back wages and increments and to award costs.

3. In the counter it is mentioned by the Management that the reference is illegal and it is not opened to the Government to refer the matter relating to appointment of a person and how and in what designation a person should be appointed. It is mentioned that it is the exclusive jurisdiction of the Management and employees cannot insist that they should be taken in a particular category. It is further pointed out that the reference is made without jurisdiction as it is not open to the Government to refer stale matters after 11 years or 7 years as the case may be.

- 4. As per the Management Sri A, Radhapathi initially uppointed as part time Messenger-cum-Watchman on 1/3rd scale of pay on 3-6-1972 on a temporary substitute basis and his services were utilised by the Bank as part time Messenger-cum-Watchman from 3-6-1972 to 28-2-1973. Since the Bank required the services of part time Sweeper-cum-Waterboy and not as Messenger-cum-Watchman. He was appointed as temporary part time Sweeper-cum-Waterboy on payment of Rs. 25.00 per month. It is only on an adhoc payment of wages and not a reversion but it was a fresh appointment. Thus it is argued that no violation under Section 9A of the I.D. Act is involved. According to the Management only when there is a regular employee having particular post and if he is reverted Section 9A of the I.D. Act is attracted. According to them depending upon the requirements of the Branch A. Radhapathi was subsequently appointed as temporary Waterboy at the Branch with effect from 14-11-1974 on the half scale of wages to the Bank subordinate staff which was subsequently enhanced to 3|4th scale of pay with effect from 1-12-1979 and as such the Bank did not violate any of the provisions of the I.D. Act. According to the Management as the employee was appointed temporary as part time Waterboy and working only as such during 1977 the decision of the Bank taken in 1977 to appoint all part time Watchmen as full time Messengers is not applicable to A. Radhapathi. It is further mentioned that it is not open to him to contend after 11 years that the change made during 1973 was violative of provision of the I.D. Act. There is no violation of by-partite agreement or any of the Cir-
- 5. The workmen examined W.W.1 and W.W.2 and marked Exs. W1 to W13. On the other hand the Management examined one witness as M.W.1 and marked Fxs. M1 to M3.
- 6. W.W.1 is Sri A. Radhapathi. According to him he worked as part-time Messenger-cum-Watchman in the State Bank of India, Palakol Cooperative Sugar Factory Sub-Office on 1]3rd scale of pay per month from 3-6-1972 till 28-8-1972 and he was terminated with effect from 1-3-1973 as per Ex. W1 and again on the same day he was appointed as Sweeper-cum-Waterboy as part time on the adhoc salary of Rs. 25.00 per month as per Ex. W2. On reversion without any notice he deposed that he worked in that capacity till 13-11-1974 and again his designation was changed as part time waterboy on half-scale of pay by an order dated 12-11-74 as per Ex. W3 and from 1-12-1979 he was working for 29 hours per week on 3 4th scale of pay with the same designation and marked Staff Circulars 74 and 80 under Exs. W4 and W5. It is his case that he is entitled for full time Messenger-cum-Watchman from 1-3-1973 and as full time Messenger from 1-9-1977 with all attendant benefits. According to him he had not been reverted as Water boy on 1-3-1973 from Messenger-cum-Waterboy to Sweeper-cum-Waterboy, he would have been promoted as full time Messenger by 1-9-1977, which he was deprived. He admitted in the cross examination that he worked as Messenger-cum-Watchman for 270 days for the first time in the Bank and there is no connection whatsoever between the Messenger-cum-Watchman job and Sweener-cum-Waterhoy both appointments are separate. Under Fy. W-3 as part time Waterhov he was given half wages and he was given 3/4 wages from 1-12-1979 as Waterboy. He mentioned that during all these times he did not profest and for the first time he demanded that he was entitled for Mosenger-cum-Watchman nost from 1-9-1978 and he marked Ex. W-12 dated 1-12-1982 and Ex W-13 dated 8-2-1982 to show that he had asked for such Messenger-cum-Watchman post. He denied the suggestion that the Union and Subordin the Staff have nothing to do with Circulars Exs. W-3 and W-4 and he is not entitled for Messenger-cum-Watchman and promotion as full time from 1-9-1974. He asserted that he mode this claim earlier and there is no lapse on his part to claim the same for the last 12 years.
- 7. WW-2 is one Sri C.B.S.P. Ramam who is the Secretary of the State Bank of India Employees Union. Vilanguada. He is in Trade Union movement in various caracities since 1966. According to him the Union raised an industrial dispute about this matter as per Ex. W-7 and also explained under Ex. W-8 and the Conciliation Officer also referred the matter to Tribunal under Fx. W-9. According to him Sri A. Radhapathi was appointed as Messenger-

cum-Watchman in terms of Bypartite Settlement 1967 as per Para 14.1 with full time designation with full working hours and full salary. According to him when he was working as Messenger-cum-Watchman his designation was changed as Sweeper-cum-Waterboy on an adhoc salary of Rs. 25.00 per month and that he was given half scale of pay from 14:11-1974 and 3/4th scale of pay from 1-12-1979. According to him when Radhapathi was originally appointed as Messenger-cum-Watchman as full time designation with full pay it was reduced to part time designation with part time scale of Rs. 25.00; 1/3 scale of pay,  $\frac{1}{2}$  scale of pay and 3/4th scale of pay and thus the staff circular Ex. W-4 and W-5 were attracted and the same is in violation of Section 9A of the I. D. Act. The other contention of the Bank that he did not object the reversion and accepted the reversion is highly immoral on the part of the Bank. It is mentioned that in all fairness the Bank should have been corrected in the injustice metted out. He pointed out that amounted to unfair labour practice when the Bank placed the employee in a position of accept change or face un-employment. He therefore contended that law of acquiescence is not applicable to Radhapathi's case and he is entitled to full time pay and full time designation as to right. He also mentioned that the reference is proper and maintainable. He mentioned that he is aware of the Desai Award, Sastry Award and Bypartite Settlement and it is no where mentioned that Sweepercum-Messenger is a menial staff and that they are treated as Sub-Staff. According to him he attended the meeting of Bylateral nature at circle level as well as National and All India level. He accepted that the nomenclature is directly related to the duties discharged by the Sub-Staff. He explained that Ex. W-4 refers to abolition of double designawho are either called Messenger-cum-Watchman or are called full time Messengers and Ex. W-4 came into existence on 22-8-1977. Ex. W-5 is clarification of Ex. W-4 and it is mentioned therein that other than Messengers the other Sub-Staff will have double designation hitherto. According to him in 1977 the Bank itself came forward to settle the issue and the issue clinched regulating part time Messengers into full time Messengers. According to him it is not necessary for the purpose of calculating 240 days, one must work for 240 days continuously in one and the same designation. denied the suggestion that Sundermoney's case had no application to the facts of this case and it is dated 16-1-1976. According to him on the basis of these Exs. W-4 and W-5 and Sundermoney's case A. Radhapathi is entitled to all the benefits as full time Messenger. According to him individual protests are not necessary in legal rights violated by the Management. According to him is highly immoral to suggest that individual had no grievance and the Union is unnecessary trying the case as a prestige issue.

- 8. MW-1 is G. Ravinder Babu was working as Officer in State Bank of India, Regional Office. Vijayawada. He knew the workman Radhapathi and he said that the employee did not protest while posting him as part time Sweeper-cum-Water boy or his subsequent promotion. According to him the Messenger-cum-Watchman and Sweeper-cum-Waterboy are two different posts. But both will come under subordinate. It is his case that Sundermoney's case have not application to this employee. He mentioned that Exs. M-1 and M-2 are not applicable to A. Radhapathi's case and the Circulars on the any retrospect effect. According to him Ex. M-9 Circular relating to promotion of Subordinate Staff. He accepted that A. Radhapathi continued as Messenger-cum-Watchman from 3-6-1972 till 28-2-1973 for more than 240 days and that he was reverted as part time Waterboy without any notice and without paying any compensation also. According to him it is not reversion but it is only a fresh appointment.
- 9. The admitted facts of the case are that A. Radhapathi was appointed as part time Messenger-cum-Watchman on 3-6-1972 at Palakol Branch and his services in that capacity was terminated from 28-2-1973. According to the Management he worked as temporary substitute basis for that period and when services were no longer required in that capacity, it is their case that they appointed him as Sweener-cum-Waterboy with effect from 1-3-1973 without any notice. It is the case of the Management that even this temporary substitute basis on payment of Rs. 25.00 per month and thus did not amount to reversion and it was only a fresh appointment and no notice under Section 9A of the I. D. Act that was required to be given in this regard and that Bank did not

violate any provisions of I.D. Act. On the other hand the employee contended admittedly that no notice was given and no compensation was paid when he worked as part time Messenger-cum-Watchman from 3-6-1972 till 28-3-1973 and that the termination without notice and without payment of compensation is in violation of Section 25-F of the I. D. Act, and therefore the declaration that the employee continued to be in service with all the consequential benefits will follow in the light of the decision reported in 1981 (II) L.L.J, page 70 S.C. Mohanlal v. Bharat Electronics Ltd. It is also their contention terminating him as Messenger-cum-Watchman and appointing him by changing his designation as Sweeper-cum-Waterboy with effect from 1-3-1973 is illegal, inoperative and void as the Waterboy post is a lower designation and it is also change in service condition and relied upon Para 14.3 of the By-partite Settlement of 1967. In the case to support their contention. According to him the By-partite Settlement did not provide for part time Messenger designation while the Waterboy provides for part time Waterboy. So it is their case that the Management with a purpose made the change of designation from Messenger-cum-Watchman to Waterboy in contravention of Section 9A of the I. D. Act and for the same reason the subsequent change from Messenger-cum-Watchman designation to Sweeper-cum-Waterboy is illegal, inoperative ab initio and void.

- 10. Admittedly the Bank has decided to regularise the part time, Messenger-cum-Watchman as full time Messenger inconformity with Para 14.3 of the By-partite Settlement, the said provision did not provide for part time Messenger-cum-Watchman. Therefore the said A. Radhapathi is given regularisation with effect from 1-9-1977 unilaterally instead of from the date of agreement. In the case of A. Radhapathi he was not regularised at least even from 1-9-1977 on the plea that on 1-9-1977 he was not a Messenger-cum-Watchman but he is only Waterboy by designation. This contention of the Management is required by the Workmen counsel contending that it is a malafide illegal and incorrative action and A. Radhapathi was to have been regularised as full time Messenger from 1-9-1977 when he had acted as part time Messenger-cum-Watchman and therefore it is specifically argued that the Management did this change of service condition on the part of the Management to raise the plea of delay or staleness.
- 11. Admittedly Exs. W-1, W-2 and W-3 would show that originally his services were taken in the camp Sub Office at Palakol Cooperative Sugar Society as temporary part time; Watchman and the same was terminated with effect from 1-3-1973 directing that he should perform such duties upto 28-2-1973. Again on 1-3-1973 he is appointed as part time Sweeper-cum-Waterboy at Palakol Cooperative Sugar Society Camp on an adhoc salary of Rs. 25.00. It is mentioned in Ex. W-2 the nature of duties to be done by him as part time Sweeper-cum-Waterboy. The work—en assertion that he worked from 1-3-1973 in that capacity was not disputed though Ex. W-2 showed that it was only for one month. though Ex. W-2 showed that it was only for one month. WW-1 again mentioned that his designation was changed as part time Waterboy on 1/2 scale of pay by an order dated 12-11-1974 under Ex. W-3 at the same office and the duties were specified again. He mentioned that from 1-12-1979 his working hours was enhanced to 29 hours per week on 3/4th scale of pay on the same designation, this was also not disputed. A. Radhapathi relied upon Exs. W-4 and W-5 which are the Staff Circulars No. 74 dated 22-8-1977 and No. 80 dated 18-10-1978 and also the Bypartite settlement with reference to Para 14.3 to contend that he is entitled to be appointed as full time Messenger-cum-Watchman from 1-3-1973 and as full time Messenger from 1-9-1977 with all attendant benefits. In other words it is his case that if he is not reverted as Waterboy from 1-3-1973 from Messengercum-Watchman to Sweeper-cum-Waterboy he should have been promoted as full time Messenger by 1-9-1977 as per Evs. W-4 and W-5 and By-partite Settlement in Para 14.3. is admitted as a Messenger-cum-Watchman he worked 270 days for the first time in the Bank and had no time, he objected when his designations were changed. According to him that he is not aware of Desai Award or Sastry Award or about the By-partite Settlement at the relevant time, and his case we taken up when his earlier representation became furile. He produced Exs. W-12 and W-13 to show that he was seeking for the remedy and Exs. W-7 and W-12 contain identical particulars and according to him he is entitled to be appointed as full time Messenger-cum-Watchman from

1-3-1973 and full time Messenger from 1-9-1977 with all attendant benefits. The contention of the Management that Section 25F has no relevancy at all seems to be not correct on the basis of the decision reported in Mohanlal v. Bharat Electronics Ltd. [1981(II) LLJ, page 70] wherein the Supreme Court following the Sundermoney's case in State Bank of India v. Sundermoney [1976(1 LLJ, 478] held the termination of contravention of Section 25-F when the said conditions are not fulfilled as ab initio void, Itis further laid down in the said judgement that a declaration that the employee continued to be in service with all the consequential benefits. Moreover the Judgement in Management of W.B. India v. Jagannath AIR 1974 S.C. Page 1166 and Himmatrao v. Jaikishandas AIR 1974 to show that Section 25-F of tne I. D. Act did not distinguish or discriminate between permament and temporary workmen. The definition of workman under Section 2(S) of the I.D. Act Act include temporary employees as well. The awards also treat temporary employees as workman. Infact those judgements laid down that if the services of workman were terminated even though they are temporary employees they were entitled to retrenchment compensation and also entitled to the benefits of the provisions relating to the retrenchment. The argument of the Management therefore that this termination from part time Messenger-cum-Watchman to Waterboy in the case of A. Radhapatl. is done as he is only working as temporary substitute is meaningless. Moreover it is peculiar that the Management on the very same day appointed him as part time Sweeper-cum-Waterboy with a new designation to show it as a appointment having terminated him without notice in violation of the mandatory provisions of the I. D. Act as required under section 9A and Section 25-F of the I.D. Act. When a person working in a higher designation appointed in the guise of fresh apopintment with redesignation with a lower category and if the Management who contends that the same is also a temporary substitute basis on adhoc payment of wages, it is rothing but shear violation of the provisions of the I. D. Act. It is further strength having violated the provisions of the I. D. Act which are mandatory to be observed the Management comes forward that the request of the worker is belated and stale. The said argument is untenable and absurd. Reliance of the Management on the report devision in 1964(II) LLJ, page 644 [Talang (G.M.) and others vs. Shaw Wallace and Company and another] had no reference at all. The Management also relied upon the judgement said to be given in Wit Petition 101183 R. Ramalingeshwar Rao v. State Bank of India, dated 27-3-1985 to show that it is a belated application in the case the nerson made an application after he was terminated in 1976 hy the Bank more than five years later and sought for a direction for writ of mandamus to reinstate him as watchman and during that time he made use of the period for prospecting his studies and thus he wanted to make out a case on the basis that in some cases the Bank in similar circumstences was making reinstatement of some of the temporary employees In that connection, it is mentioned therein he said indement that many of the points raised by the Counsel was not put in the affidavit of the petitioner and that the Court cannot ignore all practicalities and difficulties in the way of accepting his argument for reinstatement after lapse of many years. But this is not a case like that. This person A. Radhapathi was admitted in service from 3-6-1972 on-wards and he is still in service in some designation or some post or other. First of all from 3-6-1972 to 28-2-1983 he worked on 1/3rd scale of pay per month as part time Messenger-cum-Watchman. It is his case that he was working in a permanent vacancy and suddenly on 1-3-1973 he is appointed afresh as Sweeper-cum-Waterhov under Ex. W2 without any notice. Thus his representations Exs. W7, W12, W13 would clearly indicate that there was agitation for intervention and conciliation for non-implementation of the award and Bypartite Settlement and therefore it is not a case of helated matter pertaining to a state proceedings. The evidence of W.W2 would show that the Union raised an industrial dispute before the Assistant Commissioner of Labour under Ex. W7 and as a Trade Union leader he mentioned that the point of delay raised in the dispute, the Union filed Ex. W8 of show that the delay is not on their part Fx. W3 would show that the so called dalay rased by the Management was re-pelled by the union they maintained that the claims covered by the reference cited are within the operation period and as such the quesction of delay did not raise. The Union representation Ex. W8 is self-explanatory to repell the contention that there is any delay on the part of the workman

or the union in raising the matter and therefore it is time barred or it became stale.

12. The By-partite agreement had been violated from the date of its signing in respect of the category of Messenger-cum-Watchman as all such workmen including the workman A. Radhapathi who had been appointed as part time Messenger-cum-Watchman are entitled to and must be deemed to continue as such till they were given full time Messenger from 1-9-1977. The Bypartite Settlement covering the work did not provide for the designation of Messenger-cuf-Watchman. The nature of duties of Messenger implies full time employment. The appointment of part time Messenger-cum-Watchman is irregular and irregularity was more in the discrimination as they were performing the work relating to Messengers more. It is not in dispute from 1-12-1979 the workman hours of work were enhanced to 29 hours per week and paid 3|4th scale of pay and yet he was designated as part time Water-boy.

13. Incidentally the purpose of the Staff circulars 74 and 80 it is properly understood that it would show that in terms of para 14.3 Chapter XIV of the agreement entered into between the Bank and Staff Federation no combined dealgnation is provided for in the part time category of Subordinate staff. Therefore it was decided to appoint all part time Messenger-cum-Watchman as full time Messengers changing their existing double designation into single one. In Staff Circular 8 they further clarifled that in part time category there can be no designation of Messenger either as such or in combination with any other designations I nother words it is clearly established that the Bank violated the provisions of the Bypartite agreement till 1-9-1977 from the time of part time Messenger-cum-Watchman were made full time Messengers. Thus nomenclature of giving fresh appointment or giving redesignation as Waterboy from part time Messenger-cum-Watchman as Sweeper-cum-Water boy from 1-3-1973 without notice is ab initio void in terms of Section 9A of the I.D. Act. It is therefore illegal and void and in operative. The change of designation from 14-11-1974 is again void and inoperative for non-compliance with statory provisions of Section 9A of the LD. Act and thus for the said reasons the redesignation in the form of fresh appointment is nothing but reversion to a lower post as alteration of service conditions and the same is done from 1-3-1973. I have no hesitation to hold that the same is illegal and void and the management cannot contend that the person is working only as temporary substitute basic for the period from 3-6-1972 to 28-2-1973 or likewise thereafterwards.

14. A careful perusal of the reference would show that whether the action of the Management of State Bank of India in changing the designation of A. Radhapathi, part time workman from Messenger-cum-Watchman to Waterboy from 1-3-1973 and in not promoting him as full time Messenger with effect from 1-9-1977 is justified. Therefore it is not correct to say that the scope of reference is limited and it is not open to the Industrial Tribunal to go beyond the scope of the reference on the ground that the workman did not file document or award to prove that part time workman becoming full time Messenger is in the heirarchy of promotion-First of all the question of delay if there is any has to be answered by the Management in view of Exs. W7 and W8 as to why it did not correct the violation sou moto. Moreover in the matters of legal entitlement in industrial matters the question of delay did not arise. Section 25F and Section 9A of the I.D. Act are mendatory and when a change is made without compliance with the provisions of the Act. the worker will continue to enjoy the benefits he was enjoining before the change till the change is affected in accordance with law. The evidence of M.W.1 that there is no protest from the said workman or that he had acquiscence will not apply to the industrial matters. Infact the Management is bound to comply Section 9A and 25F of the LD. Act and having failed to comply with the mandatory provision of the LD. Act, as contemplated under Section 25F and 9A, they cannot set up estoppel against statutes. When any compliance with the statute goes to the root of the theme. In fact 1970(II) I, page 191, the Supreme Court held that when a question arise that the employee having accepted

retrenchment compensation should not be permitted to question the validity of the retrenchment. It was observed by the Supreme Court that such technical pleasure not ordinarily entertained in an industrial adjudication, Moreover in the Sundermoney's judgement (1976 (11)LLI, page 478 merely upheld the law as is laid down under the L.D. Act while interpetting Sections 2(00) and 25(f) of the L.D. Act, Bank Circulars Exs. W4 and W5 are very clear and they wanted the distribution by giving permanent full to dispense with two designations by giving permanent full time Messengers post and the circulars show that the Bank should deem that the posts were existing at that time and applicable to him. Now the Management wants to take advantage that the said judgement and the said Sections are not violated by redesignating him in a different post which is lower with affored service conditions. Normally Bank is obliged to undo the violation sou moto insist of taking plea it will not implement the particular provisions till such time the judgement comes into existence uphelding such provisions and from the date of such judgement. The evidence of MWI would also establish that after the termination of Sri A. Radhapathi in the post of Messenger-cum-Watchman another person was appointed in the said post. This clearly indicates that it is unfair labour practice and contravened the provisions of Section 25H of the I.D. Act as his termination was without notice and not for any misconduct. This looking from any angle it is clear that the order of the Branch Manager of Palakol under Ex. W2 appointing him from 1-3-1977 as part time Sweeper-cum-Waterboy is illegal and inoperative and void for non-compliance of provision on Section 9A of the I.D. Act and the order dated 14-11-1974 changing the workman's designation is also illegal and void.

15. It is patent that Sri A. Radhapathi should be deemed to continue as part time Messenger-cum-Watchman from 1-3-1973 to 1-9-1977 from which date all part time Messenger-cum-Watchman were promoted as full time Messengers and it also should follow that having been promoted as full time Messenger from 1-9-1977 he is entitled to consequential attendant benefits. In other words Sri A Radhapathi a pay between 1-3-1973 and 1-9-1977 stands protected at 1]3rd pay between 1-3-1973 and 13-11-1974 and 1]2 pay between 14-11-1974 and 31-8-1977. Thus A. Radhapathi is entitled to back wages on the basis of 1]3rd pay between 1-3-1973 and 13-11-1974 and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases to a 1]2rd and he is also entitled to proportionate increases the proportional tionate increments on 1|3rd pay between 1-3-1973 till 13-11-74. In other words the action of the Management of State Bank of India in changing the designation from part time Messenger-cum-Watchman to Waterboy from 1-3-1973 instead of promoting him as full time Messengers with effect from 1-9-1977 is not justified and the workman is entitled to the reliefs and attendant benefits as mentioned above and as full time Messengers with all attendant benefits from 1-8-1977.

Award is passed accordingly.

#### AWARD

The termination of the service of the workman with effect form 6-10-1983 has given rise to the present reference under Section 10(1)(d) of the Industrial Disputes Act and the matter which is referred is as under:—

"Whether the action of the management of Allahabad Bank in relation to their Raghunath Ganj Branch, Dist. Rewa, M.P. in terminating the services of Shri Ramayan Prasad Soni, sub-staff with effect from 6-10-1983 and not considering him for emrloyment while engaging another workman is justified? If not, to what relief is the workman concerned entitled?"

- 2. In support of the contention the Union who has espoused the cause of the workman pleads that Shri Ramayan Proceed Soni worked with the Allahabad Bank since 16-10-74 till 9th April, 1980 as a temporary Peon-cum-Furnash for 552 days and that he was in continuous service of the Bank as a part time employee at the consolidated wage of Rs. 60 p.m. since 6-5-1980 to 6-10-1983. It is alleged that when in the year 1981 the workman filed an application before the Regional I abour Commissioner, the management developed a prejudical attitude towards him and terminated the service it is also alleged that by denying the permanent absorption in the service of the Bank there is a violation of the Bipartite Settlement and that after termination some other employees have been posted in his place.
- 3. The management by their written statement says that the workman nover worked as a permanent employee but continued to be a sweeper on a consolidated remuneration which payment according to the Bank was within their

competency. It is further stated that they have no objection for considering the case of the workman for his regular appointment in accordance with the procedure laid down for the Banking industry provided the workman fulfils the requisite auditications.

- 4. In their rejoinder the Bank denies that the workman was in continuous service on a consolidated wage of Rs. 60 and it is reiterated that his employment was on a casual basis for a temporary period and then it is stated that this employment came to an end automatically when the period was over.
- 5. That in the preceding year of the relevant date i.e. 6-15-1983 it was stated on behalf of the workman that the workman had put in more than 308 days of service. It seems that before that he was in uninterrupted spell of service, the longest peng I am told of 179 days. However, when the legality of the termination is to be adjudged, the question would be whether he had put in more than 240 days of service, in the twelve months before termination be it continuous or uninterrupted as defined under Section 25(B) of the Act and if there is an admission that he had worked for more than 300 days during the relevant period necessary qualification for attracting Section 25-F exists in the case.
- 6. To meet the grievance of the workman that his services were terminated wrongfully, at the time of rejoinder it was contended by the Bank that the services came to an end automatically as the period was over. In all probability this contention has been raised to take advantage of the new definition of retrenchment under Sec. 2(00) & (bb) of the Act. Now for determining such an automatic termination what is essential is a written order of appointment describing the period of service, which order is totally absent. Therefore merely because it is stated that it was an automatic termination, we cannot accept the said contention and if that cannot be done, any termination under the definition of Sec. 2(00) would amount to retrenchment and for that purpose Section 25F, if it is attracted, must be followed which as the record speaks the Bank has failed to do There is neither notice issued, nor there is any payment of compensation as required by the provisions of law, rendering the termination invalid, illegal and unjustified. Therefore when we disagree with the case of automatic termination, what remains is the termination without following the provisions of Sec. 25F of the Industrial Disputes Act and the workman must get all the reliefs flowing from the operation of the relevant section.
- 7. A controversy was tried to be raised by workman that he was working as a Peon-cum-Furrash and that he continued to work as such till end and therefore the relief sought was the posting in the said capacity. Now for this purpose if we have a glance at the statement of claim it would be seen that although there is a statement that from 1974 to 1980 the workman was working as a temporary Peon-cumi-Furash and therefore he had put in not more than 552 days in total, the very claim of the workman further indicated that during the crucial period before 1983 right from 1980 he was serving as a part time employee at a consolidated wage of Rs. 60 p.m. It is already seen that for the purpose of Sec. 25F read with Section 25B of the Act the last spell of service is material and when relying on this the order of termination is quashed, no further relief is possible than to order reinstatement in the same capacity which was held earlier when he was drawing a consolidated wage of Rs. 60. Once we hold that the termination was unjustified and illegal then the other relief normally is reinstatement with all full back wages and therefore it is ordered that the termination being in contravention of Sec. 25F of the Act, the workman is ordered to be reinstated in service as a part time employee on a consolidated salary of Rs. 60 p.m. He shall be entitled to full back wages at the said rate from 6-10-1983 till the time of his reinstatement. In case there is any revision on account of award of settlement applicable to such part time employee drawing consolidated salary the workman also should derive the advantage therefrom. Similarly in case part time employee is entitled to better his chances by seeking full time appointment, workman would be entitled to be considered for the service.

#### AWARD

The Central Government in exercise of the powers conferred by clause (d) of sub-section (1) of Section 10 of the Industrial Disputes Act, 1947, shortly called Act, has referred the above noted dispute for adjudication as per the Schedule below:—

#### **SCHEDULE**

- "Whether the demand of the workman, Shri N.M. Ashrit for remastatement in services of the Karnataka Bank Limited with continuity of service, back wages and arrears of difference in emoluments due for the period of service from July, 1972 to July, 1979 at the Gadag Branch of the Bank is justified? If so to what relief is the concerned workman entitled?".
- 2. The I Party workman who remained absent throughout the proceedings on almost all the dates of hearing has sent his claim statement by post and contended that since 7-7-1972 he has worked as a Night Watchman in the Gadag Branch of the II Party Bank and was receiving a salary of Rs. 30 p.m. which was raised to Rs. 45 p.m. subsequently. It is further contended that his Staff Number was 1263 and the II Party, though he was working honestly to the satisfaction of his superiors, did not pay the wages in accordance with those prescribed in Awards and Bipartite Settlements and no benefits has been extended though he was working as a sub-staff of permanent nature.
- 3. It is further contended that on 31-7-1979 his services are discontinued without issuing a termination order though he was in continuous service of more than 7 years. The II Party without proper notice or nayment of compensation terminated the services which is illegal, null and void and inoperative in law. Hence he is deemed to be in continuous service and entitled for reinstatement with full back wages and continuity of service.
- 4. It is further contended that though he has worked in the sub-staff cadre the II Party has not paid the wages applicable to the said cadre and not extended the benefits and hence he is entitled to difference of wages from 1972 to July. 1979. It is further contended he is unemployed and suffered a lot for all these years and hence he is entitled for reinstatement with full back wages, continuity of service and arrears of wages as applicable in the Awards and Bipartite Settlement.
- 5. The II Party in their counter statement have denied all material allegations made in the claim statement and contended that the I Party was appointed on adhoc basis only as a Night Watchman on a special contract entered into between them from time to time and last of the contract was expired on August 1978. He was never in continuous service and his appointment was not permanent and it was made to meet special and periodical exigencies of the Gadag Branch. It is further contended the I Party was in service under countract and on the expiry of the contract he was ceased to work and it was only after entering into fresh contract after lapse of some time, his work used to be resumed and therefore there was no artificial treak in his service and he cannot be classified as staff under any of the category provided in the Bipartite Settlement and he is not entitled for the benefits under those settlements.

  6. It is further contended that the practice of appointing
- 6. It is further contended that the practice of appointing night watchman on contract basis for branches which are having no locker system has been discontinued by the Head Office on or about 1979 and hence the question of termination of service does not arise and no termination order is necessary in law, the termination is due to efflux of time and the same is in accordance with the provision of the contract of service. They have denied the claim of the I Party that he was in continuous service for more than 7 years and further contended, under para 16-9 of the Desai Award "casual and job workers were excluded from the scope of the Sastry Award as modified", hence the provivision of those awards are not applicable in cases of appropriation of non-staff on ad-hoc basis and the I Party had never any lien on his service as night watchman.

- 7. They have lastly contended the I Party is not entitled for reinstatement or back wages and he having acquiscesed for over 2 years cannot reopen the claim and hence the reference is liable to be rejected.
- 8. Since there was no scope or framing any additional issues the parties have been directed to lead their evidence in the points of dispute. The I Party has not shown any interest to lead the evidence in spite of several adjournment granted and used to remain absent on the date of hearing. In view of this, this Tribunal has issued one more notice to him to make progress in the case and due to his absence after receipt of the notice after closing his side the Tribunal directed the II Party to lead their evidence and accordingly they have examined one witness and documents from Exts. M-1 to M-9 are marked.
- 9. The witness Mahadhu Rao who was working as a Manager from 1974 to 1978 at Gadag Branch of II Party Bank has deposed that the I Party workman was working as a night watchman on temporary basis by executing agreements every year with some conditions of service as per Exts. M-1 to M-5. He has further deposed after 1978-79 the Bank has discontinued the practice or appointing night watchman as every bank was provided with a strong room to keep the monkey and other valuables and Ext. M-6 is a letter sent to Gadag Branch in this regard and Ext. M-7 is the statement of account showing the remuneration naid to the night watchman of different persons from 1-2-78 to 20-2-80 including the I Party workman. He has further deposed that the appointment of the I Party workman was purely temporary and Ext. M-9 is the Acquittance Roll from August 1977 which shows the names of permanent employee working at Gadag.
- 10. On the basis of both oral and documentary evidence the learned counsel for the II Party has submitted that since the I Party has been appointed on temporary basis with limited purpose in accordance with the agreement under special service contract which has been renewed from year to year in accordance with the exigencies, he cannot claim reinstatement and continuity of service. The learned counsel further drew the attention of this Tribunal to Ext. M-6 a letter addressed by the Head Office to Gadag Branch and the service of night watchman is found to be not essential, the service of the Party was discountinued.
- 11. The I Party on whom the burden in casted to prove his case has not made any honest efforts to substantiate the stands taken by him hence this Tribunal is left with no option than to reject this reference itself.

#### **AWARD**

The reference is rejected and the parties shall bear their own costs.

For the Workmen—Shrl D. S. Gaikwad, General Secy. STATE: Maharashtra. INDUSTRY: Cantonment Board.

Bombay, dated the 1st November, 1985

#### AWARD

By their order No. L-13012(1) 84-D.II(B) dated 21-5-1985 the following dispute has been referred for adjudication under Section 10(1)(d) of the Industrial Disputes Act, 1947.—

- "Whether the action of the Cantonment Board. Pune in not appointing Shrimati R. H. Satarkar, substitutes staff Nurse to the said nost on regular basis after she was selected for that post and further in terminating her services with effect from 1-8-1983 is justified and legal ? If not, to what relief the workman is entitled to ?"
- 2. Smt. R. H. Satarkar was a substitute staff Nurse employed in the SVP Cantonment General Hospital from October, 1979 to July, 1983. Admittedly, in the year 1979 she worked for 66 days, 1980 for 65 days, 1981 for 207 days, 1982 for 116 days and in 1983 for 125 days till 30th July, 1983. The contention of the workman is that with effect from 1-8-1983, she was retrenched in violation of Section 25F of the Industrial Disputes Act and that the management could not have invoked the provisions of the Employment Exchange (Compulsory) Notification of Vacancies Act, 1959 and therefore she is entitled to re-employment.
- 3. By the written statement the case of the Cantonment Board is that since the workman was not sponsored by the Employment Exchange her services could not have continued although she was selected as a Staff Nurse against a permanent post, which selection was subject to relaxation of Rule 5-B(1) of the C.F.SR 1937 by the GOC-in-Chief the Command, who did not agree to the proposal.
- 4. On the above pleadings the following issues arise for determination and my findings thereupon are:—

#### **ISSUES**

#### FINDINGS

Whether the selection of Smt.
 R. H. Satarkar was inoperative for the reasons stafed in para. 6 and 7 of the Written Statement ?

Provisions of Industrial Disputes Act must prevail.

(2) Whether the termination of service of the workman with effect from 1-8-1983 amounted to retrenchment?

Yes

(3) Are Sections 25F and 25B of the Industrial Disputed Act attracted ?

No

 (4) If it amounts to retrenchment, whether provisons of S.25F have been fulfiled?

No

(5) If not is retrenchment valid, justified and legal?

No

(6) If not to what relief Smt R. H. Satarkar is entitled? Entitled to the relief or re-employment as and when vacancy occurs.

(7) What award?

As per award.

#### REASONS

- 5. As already indicated the period of service put in by the workman stands undisputed and if 30th July, 1983 is the last day of service, as the record stands during period of last 12 months prior to 30th July, 1983 the workman seems to have put in 187 days of service, the result is that she cannot invoke Section 25F of the Industrial Disputes Act, read with Section 25B and even if the termination amounts to retrenchment in the absence of aid from Section 25F of the Act the same cannot be declared to be illegal.
- 6. However, the Cantonment Board went on engaging her from 1979 as and when the necessity arose and persisted almost for five years before finally the workman was sent home. During this period she was serving as substitute Nurse on temporary basis. In Schedule V. of the Industrial Disputes under Clause 10 to employ a workman temporarily and to confine the property of t tinue him as such for years with the object of depriving him of the status of permanent workman amounts to Unfair Labour Practice. Similarly in the Kapurthala Central Co-operative Bank Ltd. vs. Presiding Officer, Labour Court Jullundur reported in 1984 LAB.I.C. 974 it was held that when the services of the workman were terminated on his rendering 230 days service with notional breaks, when the work of the workman was satisfactory and others had been recruited in his place it was held to be Unfair Labour Practice and therefore the workman was entitled to reinstatement. No doubt in the instant case in the last year the workman had put in 187 days only and after asking for serving as substitute Nurse and therefore on temporary basis for almost five years, it would not be fair on the part of the employer to tell one fine morning that she does not qualify because she was not sponsored by the Employment Exchange. In my view it still amounts to Unfair Labour Practice and when the facts are to be considered in the light of the Industrial Disputes Act, the said Act would prevail over the Employment Exchange Act and the workman though will not be entitled to the relief of reinstatement in the absence of application of Section 25P of the Industrial Disputes Act, would still be entitled to have preference and claim to be appointed as Staff Nurse on regular basis as and when vacancy occurs. Relief accordingly.

  Award accordingly.

- 2. After the reference has been registered, the notices have been issued to the parties and they have been represented by the advocates and after considerable delay the parties have filed their statements and this Tribunal has raised a preliminary issue connected to the validity of the reference and the locus standi of the I Party Union. My learned 1162 GI/85—15

predecessor on 25-3-1978 has passed an ex-parte award against the I Party for not leading evidence on the preliminary issue. Against this award, the workmen of the I Party, in the capacity of petitioners 2 to 20, have referred a write petition perform the Honble High Court in W.P. No. 6670 78 and the Hon'bie High Court allowed the writ petition and remanded the matter with a specific direction that it should be disposed within a period of six months from 3-1-1981. The records further reveal that after the remand the II Patty-Management have taken up a contention that the Presiding Officer has no jurisdiction to adjudicate the dispute on the ground that the original reference was made in the name of Sri M. C. Konnur, the then Presiding Officer of the Tribunal. My learned predecessor has decided this contention on 18-8-2 rejecting the plea taken by the H Party. Then a preliminary issue has been framed to decide the validity of the domestic enquiry.

- 3. Though the above preliminary issue has been bamed on 15-12-82 it is unfortunate that the case under went several adjournments on one protest or the other mostly on the request of the II Party with untenable contention. Finally, on the motion made by the II Party, a summons has been assued to the Enquiry Officer and the Enquiry Officer. was partly examined on 2-5-85 and when this Tribunal shown is reluctance to give adjournments the union purported to be represented by the I Party workmen has filed a Memorandum of Settement entered with the II Party in relation to the workmen who are the parties to this disnute. This settlement was strongly resisted by the above workmen who made allegations that they are not parties to this settlement and the union which is a puper in the hands of the II Patty has filed this so called settlement to defeat the interest of the workmen. A detail argument was heard on the validity of this settlement and this Tribunal has rejected the said settlement as not binding to the above workmen vide its order dated 13-8-85. After this order, the II Party have again started absenting themselves, hence the evidence of the Enquiry Officer who has been examined in part was closed and the case is posted for the evidence of the I Party workmen and this Tribunal also suggested to the II Party to enter into a compromise. On the advice of the Tribunal the 1 Party have sent a proposal to the II Party which was not accepted and the I Party have examined one of the workmen with regard to the validity of the domestic enquiry and closed its case. The learned counsel for the I party has addressed the argument on the validity of domestic enquiry and also on the merits of this dispute.
- 4. The above facts is a brief statement concerning the history of this dispute which fact has pursuaded this Tribunal to decide this matter finally keeping in view the unrest created in the minds of the workmen affected by the dismissal orders made by the II Party and dilatory method and callous attitude shown by the II Party which is an uter flagrant violation of human rights.
- 5. The I Party have contended in their claim statement filed on 23-2-76 that the workmen of the II Party made the determined efforts in 1973 to form a strong labour union as the leaders of the provious union could not effectively bargain with the management to settle their grievances on I called for a General Body meeting on 21-6-73 for electing new office bearers and sought permission of the management. After obtaining the permission they proposed to hold a meeting in a place called Subravanahalli, a viliage outside the mining area. Since the very idea of inducting an outsider into the union was not liked by the management they have decided to disturb the meeting by the help of the rollne who have intervened and the meeting was disturbed. On 23 6-73, the management issued a notice calling for a meeting who have not attended by any workman. Thereafter, the General Body of the I Party workmen met at Tumbaraguddi village and they elected their President and Secretary.
- 6. They have further contended that the H Party gave suspension orders to 45 workers. Then the enquiry was commenced in the pressence of police and those workmen who are workmen's witnesses were suspended to permit them by giving evidence and out of the suspended workers 25, were taken back to duty.

- 7. They have further contended that the procedure adopted in the enquiry is against the principles of natural justice and the enquiry was conducted in the presence of about one hundred police personnels including Sub-Inspectors and the witnesses who expected to give support to the case of the workmen have been suspended and many witnesses due to the presence of the police were frightened and prevented from coming. Standing Orders have been violated as the Enquiry Committee did not allow the representative of the union and the request in this behalf was turned down and some uneducated workers who are not the office bearers were brought by the management to represent the workmen and copies of the proceedings were not given and assistance from outsiders was not allowed and on such enquiry they have dismissed them from service.
- 8. The further contention of the I Party is that they have been victimised due to their trade union activities, the enquiry is vitated due to the threat and intimidation and the presence of the police. The well recognised principles of natural justice were thrown to the winds, the police were preventing the workmen and the provisions of the Standing Orders 11, 13(c). 14 etc. are violated.
- 9. They prayed for an award directing the II Party to reinstate with back wages and continuity of service.
- 10. The II Party have filed their first statement on 16-6-75 and thereby contended that the I Party workmen have violated Standing Orders Nos. 14-2(b), 14-2(h), 14-2(o), 4-2(a) and 14-2(j) hence charge sheets were serve and their explanations were duly received. Being dissatisfied with the explanations the II Party decided to hold an enquiry and in the course of enquiry all reasonable opportunity was provided for cross-examination and also produced the witness list and documents to the I Party workmen. It is further contended that all the proceedings of the enquiry have been scrupifously conducted in full compliance with the legal requirements and the Enquiry Officer offer examination of the oral testimony and documents has submitted his report and due to the gravity of the offence the management awarded the dismissal consistent with fairness and necessary for the maintenance of industrial discipline. It is further contended that the dismissal of the above 19 workmen is legal and this Tribunal should uphold the action of the II Party.
- 11. The II Party have filed a second statement on 19-4-75 questioning the very jurisdiction of this Tribunal due to change of Presiding Officer as the practice of the Central Tovernment was to send the reference in the name of Presiding Officer of a particular Tribunal. That objection was decoded by my learned predecessor on 18-8-82.
- 12. The II Party have filed a final statement on 6-11-82 reiterating the stand taken by them in the earlier and denied all the averments made by the I Party in their claim statement. On a perusal of this detailed objection statement it is mostly confined to the 2nd additional issue framed earlier by my predecessor which was decided by the Hon'ble High Court while Tëmitting the matter on 8-1-1981. After going into a futile exercise of these lengthy pleadings, the additional issues that arise for determination are:—
  - (1) Whether the enquiry against the I Party workmen was justified and proper and in accordance with the principles of natural justice?
  - (2) If the above issue is held in the negative whether the II Party are entitled to lead their evidence to prove the misconduct before this Tribunal independently?
  - (3) What order?
- 13. Issue No. 1—To prove this issue the II Party have examined one of the enquiry officers Sri C. M. Ghouse Mohinddin who was working as a personnel officer at the time of this enquiry.

- 14. With regard to the validity of domestic enquiry, this witness deposed that the management have constituted two enquity committees, one by Sri S. R. Patil and another He has conducted about 14 or 15 enquiries and one Mr Rama Rao represented the management and one Mr. P. C. Subvalah represented the workmen. He further deposed that Exts. M-1 to M-19 are the enquiry files relating to all the above 19 workmen and out of 3. chargesheeted workmen. 15 have pleaded guilty and they have not been dismissed from service. He has turther deposer that the enquiry was commenced on 27-7-73 and the management examined their witnesses who have been cross examined by the representative of the delinquents and the proceedings were recorded in English and the evidence was explained to the delinquents and the delinquents have signed on some of the pages of the proceedings and refused to sign where they have dis-agreed with the deposition. He has further deposed that normally all the delinquents have examined witnesses on their behalf and the delinquents though an opportunity was given to engage a co-workman they have informed that they will conduct the case by themselves. He has further deposed that based on the enquiry he has submitted his report and based on this report the workmen have been dismissed by the management and the said fact was communicated.
- 15. This witness has failed to appear for further examination and cross-examination inspite of several adjournments and in view of the long pendency of this case and other circumstances stated in the preamble of this award, the prayer for adjournment was rejected and in view of this his evidence will not assist this Tribunar to arrive at any conclusion since it amounts to no evidence at all as he was not submitted himself for cross-examination.
- 16. On behalf of the workmen one K. Rudrappa, one of the dismissed workmen, gave the evidence whose name is appearing at St. No. 4 of the Schedule. With regard to the validity of domestic enquiry this witness has deposed that the management have not allowed them to take the help of co-workman and during the time of enquiry the police were present in the area throughout and they have not been allowed to examine the witnesses on their behalf and the witnesses were thereatened not to give any evidence and the management also suspended those of the employees who gave the evidence on their behalf. He has further deposed the enquiry proceeding were written in English which they are not able to understand and they have not been given opportunity to cross-examine the witnesses examined on behalf of the management. Since this witness has not been cross-examined his evidence stands unrebutted and hence I hold this issue in the negative.
- 17. Issue No 2:—This issue has been framed after this Tribunal recorded the evidence on the 1st issue and also in view of the submission made by the learned counsel for the I Party. The learned counsel has submitted that since the II Party have not sought the permission of this Tribunal by means of an application to permit them to prove the misconduct of the workmen in the event this Tribunal come to a conclusion that the domestic enquiry conducted is not in accordance with law and in that event the whole case can be decided on the conclusion reached on the 1st issue. There is considerable force in the submission of the learned counsel as the H Party have not sought permision in their counter statement filed on three occasions about this fact. In this regard, the law is well settled by a judgement rendered by the Hon'ble Supreme Court reported in A.I.R. 1984 SC 289 between Shambhu Nath Goyal and Bank of Baroda. When a similar question came up before Their question came up before Their Lordships, it was held -
  - "(B) Industrial Disputes Act (14 of 1947), Sections 33, 10, 11 and 11-A—Application by Management seeking permission under Section 33—Defect in domestic enquiry pleaded. Management's right to

adduce additional evidence to substantiate charge—Application has to be filled at the earliest stage without delay. W.P. No. 1407 of 1979 (Delhi), Reversed.

The application of the Management to seek the permission of the Labour Court or Industrial Tribunal for availing the right to adduce further evidence to substantiate—the charge or charges framed against the workman is the application which may be filed by the management during the pendencey of its application made before the Labour Court or Industrial Tribunal seeking its permission under Section 33 of the I.D. Act to take a certain action or grant approval of the action taken by it. The management is made aware of the workman's contention regarding the defect in the domestic enquiry by the written statement of defence filed by him in the application filed by the management under Section 33 of the Act. Then, if the management chooses to exercise its right it must make up its mind at the earliest stage and file the application for that purpose without any unreasonable delay But when the question arises in a reference under Section 10 of the Act after the workman has been furnished pursuant to a finding of guilt recorded against him in the domestic enquiry there is no question of the management filing any application for permission to lead further evidence in support of the charge or charges framed against the workman, for the defect in the domestic enquiry is pointed out by the workman in his written claim statement filed the workman in his written claim statement filed in the Labour Court or Industrial Tribunal after the reference had been received and the management has the opportunity to look into that statement before it files its written statement of defence in the enquiry before the Labour Court or Industrial Tribunal and could make the request for the opportunity in the written statement itself. If it does not choose to do so at that stage it cannot be allowed to do it at any later stage of the proceedings by filing any application for the purpose which may result in delay which may had to wrecking the morale of the workman and compel him to surrender which he may not otherwise do. (AIR 1979 SC 1652. Explained. W P. No. 1407 of 1979 (Delhi). Reversed.)

Per Desai. J:—It cannot be said that some independent right to make an application at any time is conferred on the employer. Ordinarily there a party claims elief, it must plead for the same. The pleading can be incorporated in a statement of claim or a written statement of defence It is not the taw that an application at any stage of the proceedings without explaining why the relief was not claimed in the original pleading has to be granted. If a separate application is made, it would be open to the Labour Court Industrial Tribunal, to examine the question whether it should be granted or not depending upon the stage when it is made, the omission to claim in the initial pleading, the delay and the motivation for such delayed action. Without being specific, it can be said that such an application

has to be examined as if it is an application for amendment of original pleadings keeping in view all the aforementioned considerations and if it does not appear to be bone fide or has been made after a long un-explained delay or the explanation for the omission of claiming the relief in the initial pleading is unconvincing, the Labour Court, Industrial Tribunal would be perfectly justified in rejecting the same. It is not a proposition of law that as and who it suits the convenience of the employer at any stage of the proceedings, it may make an application seeking such opportunity and the Labour Court Industrial Tribunal was obliged to grant the same.

In the instant case, an application was made by the manager on 8-2-1979 when the matter was before the Tribunal for the second time after it by the Supreme Court on ing the management's conhad been remanded 2-2-1978 after rejecting the tention what the dispute is not an industrial dispute. That was by the management nearly 14 years after the workman had been suspended on 20-7-1985 and nearly 13 year after the workman had been found guilty in the domestic enquiry and dismissed from service on 28-12-1965. The management took the preliminary objection which found tayour with the Tribunal in the first instant on 25-10-1970 that the dispute is not an industrial dispute. That objection, which was apheld by the Tribunal, forced the workman to seek his remedy in the Supreme Court which rejected the objection on 2-2-1978. It is only thereafter that the management filed the application dated 8-2-1979 for the first time seeking further opportunity to lead evidence before the Tribunal for substantiating the chages framed in 1965. In the circumstances the judgement of the High Court allowing management's application has to be set uside and the Tribunal's award directing reinstatement of work-man with full back wages and other benefits from the date of his suspension has to be restored.'

18. In view of the above Ruling and non-inclusion of such a prayer by the II Pary, I hold this issue in the negative.

19. In view of my findings on the above two issues, I make the following Award :---

#### AWARD

The II Party are not justified in dismissing the above workmen and they are entitled for reinstatement with continuity of service with 50 per cent of their wages last drawn from the date of suspension up-to the date of this Award. The I Party are also entitled for the cost of this litigation which is fixed at Rs. 5000.
